Summer Practice Challenge June 7-30:
How many ways can you use these cubes????? Write a list.

Sharing our practice idea - I found dry erase cubes at the Dollar Tree. I used one to practice with my 7 year old grandson and he loved it. I wrote "shoulder" on 2 sides, "fingers" on two sides, and "thumbs" on two sides. Whichever he rolled, he had to check before playing his next piece. He went further, and wrote "random" on 2 sides. It didn't mean what I thought. He said it meant that he had to check all three things before he played the next piece - even better, right?

There are so many ways to use these dice: pieces written on each side, action to do, like close one eye and play, numbers for which piece to play, places to play, like on the patio or in the dry bathtub, etc. Let's share ideas at the potluck.

If you are unable to find a cube at your Dollar Tree, I will have a few at the Potluck.
